Dear Ms. Duong,

Your program/effort has been selected as a "Teaching Example" to be featured on the official website of the "President's Summit for America's Future." Thank you for your quick response to this process and for taking the time to share the benefit of your experience and successes. Your interest and excitement are encouraging and are strong indications that it is the commitment from Americans in their local communities that will create a better future for its children.

It may take some time to have items posted on the website. Some may be profiled in more depth than others, however we are grateful for all nominations. It is possible that we will contact you again for further information, clarification on the materials you have already submitted, or for your assistance in defining your leading teaching point. Your good example will serve as an inspiration and tool for others who are looking for replicable solutions to the challenges they face in their own communities.

Should you have further questions regarding the posting of your program on the Summit website, please contact Chad Mayer at (703)684-4500 x195.

Sincerely,

Thomara B. Speight
